The Nevada Zouma Test Site is located in the Russian Federation on the territory of Zouma-Zavodyakh in a part of Archangelsk region and is one of the regions of the world's largest nuclear explosions. The Nevada Zouma Test Site (Figure 7). The location of the test site on the map of the world is shown in Figure 10. 12. The seismic activity of the test site is monitored by the Lassen-Butte Observatory (LBO), USA, and under financial support of Kurchatov Institute, IGR, Russian Seismic Center NORSAR.

The seismic wave from the test site was recorded by the Lassen-Butte Observatory (LBO), USA, and under financial support of Kurchatov Institute, IGR, Russian Seismic Center NORSAR. The seismic wave from the test site was recorded by the Lassen-Butte Observatory (LBO), USA, and under financial support of Kurchatov Institute, IGR, Russian Seismic Center NORSAR.
