Distr.: General
14 December 2006

Original: English

Sixty-first session

Agenda items 96 and 108 (s)

Comprehensive Nuclear-Test-Ban Treaty

**Cooperation between the United Nations and regional
and other organizations: cooperation between the
United Nations and the Preparatory Commission for the
Comprehensive Nuclear-Test-Ban Treaty Organization**

**Letter dated 13 December 2006 from the Permanent
Representative of Canada to the United Nations addressed to
the Secretary-General**

On behalf of Australia, Canada, Finland, Japan and the Netherlands, I have the honour to forward to you the joint ministerial statement in support of the Comprehensive Nuclear-Test-Ban Treaty, which was launched on 20 September 2006 in New York (see annex). It is our pleasure to inform you that as at 13 December 2006, 72 countries have associated themselves with the joint statement. We would be grateful if you would have the present letter and its annex circulated as a document of the General Assembly at its sixty-first session under agenda items 96 and 108 (s).

We would also like to take this opportunity through you to inform those members that are not accredited to the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization that we would be pleased to be notified whether their Foreign Ministers wish to endorse the attached joint statement.

(Signed) John McNee
Ambassador
Permanent Representative

Annex to the letter dated 13 December 2006 from the Permanent Representative of Canada to the United Nations addressed to the Secretary-General

Joint ministerial statement on the Comprehensive Nuclear-Test-Ban Treaty

20 September 2006
New York

1. We, the Foreign Ministers who have issued this statement, reaffirm our support for the Comprehensive Nuclear-Test-Ban Treaty, which would rid the world of nuclear weapons test explosions and would contribute to systematic and progressive reduction of nuclear weapons and the prevention of nuclear proliferation.

2. In 2006, which marks the tenth anniversary of its opening for signature, we emphasize that the Treaty is a major instrument in the field of nuclear disarmament and non-proliferation. The Treaty was an integral part of the 1995 agreements by the States parties to the Nuclear Non-Proliferation Treaty allowing the indefinite extension of the Treaty. The early entry into force of the Comprehensive Nuclear-Test-Ban Treaty was recognized at the 2000 Review Conference of the Nuclear Non-Proliferation Treaty as a practical step to achieving the nuclear disarmament and non-proliferation objectives of the Nuclear Non-Proliferation Treaty and has also been reaffirmed by the General Assembly as being of central importance.

3. We recall the Conference on Facilitating the Entry into Force of the Comprehensive Test Ban Treaty that adopted in September 2005 a declaration stating that participating States would “spare no efforts and use all avenues open to us in conformity with international law to encourage further signature and ratification of the Treaty” and deciding on a set of measures to progress towards that goal.

4. We affirm that the Comprehensive Nuclear-Test-Ban Treaty will make an important contribution towards preventing the proliferation of materials, technologies and knowledge that can be used for nuclear weapons, one of the most important challenges the world is facing today. Thus, the entry into force of the Treaty, within the broader framework of multilateral disarmament and non-proliferation efforts, is more urgent today than ever before. Progress on this issue would also contribute to a positive outcome of the preparatory process for the 2010 Review Conference of the Nuclear Non-Proliferation Treaty, which will start in the spring of 2007.

5. We welcome the fact that the Comprehensive Nuclear-Test-Ban Treaty has achieved near universal adherence with signatures by 176 States and ratification by 135 States as of 20 September 2006. Of the 44 States whose ratification is necessary for the entry into force of the Treaty, 10 have yet to do so. We call upon all States that have not yet done so to sign and ratify the Treaty without delay, in particular those whose ratification is needed for its entry into force. We recognize the extensive range of bilateral and joint outreach efforts by signatories and ratifiers to encourage and assist States that have not yet signed and ratified the treaty. We commit ourselves individually and together to make the Treaty a focus of attention at the highest political levels and to take measures to facilitate the signature and

ratification process. We support the efforts by the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization to facilitate that process by providing legal and technical information and advice.

6. We call upon all States to continue a moratorium on nuclear weapon test explosions or any other nuclear explosions. Voluntary adherence to such a moratorium is of the highest importance but does not have the same permanent and legally binding effect as the entry into force of the Treaty. We reaffirm our commitment to the Treaty's basic obligations and call on all States to refrain from acts that would defeat the object and purpose of the Treaty pending its entry into force.

7. We welcome the progress made in building up all elements of the verification regime, which shall be capable of verifying compliance with the Treaty at its entry into force. We will continue to provide the support required to complete and to operate the verification regime in the most efficient and cost-effective way. We will also promote technical cooperation to enhance verification capabilities under the Comprehensive Nuclear-Test-Ban Treaty.

8. In addition to its primary function, the Treaty verification system will bring scientific and civil benefits, including for tsunami warning systems and possibly other disaster alert systems, through civil and scientific applications of waveform and radionuclide technologies and use of the data. We will continue to seek ways to ensure that those benefits will be broadly shared by the international community.

9. We appeal to all States to make maximum efforts towards achieving the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty. On our part, we dedicate ourselves to realizing that goal.
