Statement of Confirmation
The attached Statement of Confirmation shall be duly signed and submitted together with the Proposal.

Mandatory Requirements of the Technical Proposal
The Technical Proposal shall be written in accordance with the structure set out in Attachment 1 ("Mandatory Requirements of the Technical Proposal") attached hereto. The total number of person-days/work-hours proposed for the project as part of the “turn-key solution” (on-site as well as off-site) and their respective estimated allocation to different work-phases shall be specified clearly in the proposal. In any case it shall be sole responsibility of the Contractor to fulfil and complete the scope of work as specified in these Terms of Reference regardless of the actual number of man-days dedicated to a specific task.

**Specifications**

The Proposal shall include a detailed description of the items proposed and include relevant technical literature.

The Proposal shall also provide any other relevant issue which the bidder would like to bring to the attention of the Commission whether or not having cost implications. This shall include details of warranties/manufacturer’s guaranties in respect to any Equipment item.

A description of the expected inputs/resources to be made available by the Commission and at what stage of the services.

All sub-contractors shall be legally established in one of the CTBTO Member States.

If after reasonable efforts, the Commission is unable to contact the client references provided by the bidder, the Commission may take the decision not to further consider the offer provided by the bidder.

**Model Contract**

A statement that the bidder has carefully reviewed the Model Contract and its Annexes and is in agreement with all its terms and conditions.

**Delivery Schedule**

PART II: FINANCIAL PROPOSAL

In the financial Proposal, you are required to define the following:

Format of the Financial Proposal

1. The Financial Proposal shall be submitted in the format set out in Attachment 2 “Format of Financial Proposal” attached herewith. Bidders shall provide all the information requested in that matrix but may provide additional related content as attachments.

   This will be evaluated as part of the responsiveness of the Financial Proposal. A Proposal that fails to meet this requirement may be disqualified and not be considered for further evaluation.

2. The Bidder shall quote firm fixed person-day fees/rates in EURO or US Dollars. The quoted fees/rates should include all overheads and ancillary expenses, unless included as firm-fixed “Other Costs”, or otherwise stated in Attachment 2 “Format of Financial Proposal”.

Indirect Taxes

In principle the Commission is exempt from taxes. Since the arrangement under which such exemption is respected varies from country-to-country, the selected bidder will be informed by the Commission whether tax exemption will occur at source or whether taxes paid by the selected bidder will be reimbursed by the Commission upon submission of the original supporting documentation.

(1) For Austrian companies

The price quoted shall be net of Taxes. All applicable Taxes payable by the selected bidder at the conclusion or implementation of the Contract in respect of the goods/services shall be quoted separately or be separately identified on the Proposal together with information on the nature of the tax and its method of calculation.

(2) For European Union (EU) Companies

The price quoted shall be net of Taxes. All applicable Taxes payable by the selected bidder at the conclusion or implementation of the Contract in respect of the goods/services shall be quoted separately or separately identified on the Proposal together with information on the nature of the Tax and its method of calculation. Due to the VAT exemption applicable to the Commission, no VAT will be charged to the Commission by the EEC Suppliers under the Contract (Ref. EU VAT Council Directive 2006/112/EC, Article 151).

(3) For Non-EU Companies

The price quoted shall be net of Taxes. All applicable Taxes payable by the selected bidder at the conclusion or implementation of the Contract in respect of the goods/services shall be quoted separately or be separately identified on the Proposal together with information on the nature of the tax and its method of calculation. For deliveries to Vienna, Austria, and due to the tax exemption at source applicable to the Commission, no Taxes shall be charged to the Commission under the Contract.
10. **Completeness and Correctness of the Proposal**

   The Commission reserves the right to verify all information furnished by you in the Proposal through a source of its choice. Any inaccurate information so given may lead to the rejection of the Proposal.

11. **Validity of Proposal**

   The Proposal shall be valid for 90 (ninety) days after the deadline for its submission to the Commission, unless an extension of validity has been requested by the Commission.

12. **Correction of Errors**

   The Commission will check the Proposal for any arithmetic errors. If there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected.

13. **Evaluation of Proposal**

   (a) The Commission will first conduct a technical evaluation based on the following main evaluation criteria categories:
   
   - Meeting the overall Requirements
   - Requirements for the Contractor and for the Contractor's staff
   - Capacity and Technical Expertise to deliver services listed in section 6 of the Terms of Reference

   Please see *Attachment 3 (Evaluation Criteria)* for a complete list of the criteria that form the basis of the technical evaluation for each of the above listed categories. If the Proposal fails to meet the minimum technical requirements for any one criterion, the entire proposal will not be considered further. If the Proposal meets the minimum technical requirements, the Commission reserves the right to invite the proposed personnel to an interview in order to complete the technical evaluation of the Proposal and give a technical score.

   (b) Only the Financial Proposals of those bidders that meet or exceed the minimum technical requirements of all items will be opened and evaluated for their commercial acceptability and to determine the financial score for each responsive Bidder. The Commission will evaluate the following:

   (i) Proposed unit prices to obtain the financial value based on estimated person-days for the Call-off Period. See pricing requirements in *Attachment 2 (Format of Financial Proposal)*.

   (ii) Contractual compliance.

   (c) The Commission, based on the evaluation method given above, will determine the Proposal that ‘most effectively satisfies the technical and operational requirements set out in the solicitation documents’. The relative weighting of each component of the Proposal is 60% for the Technical Proposal and 40% for the Financial Proposal.
(d) The Commission will award the Contract to the bidder who receives the highest combined score. The Commission, at its own discretion, may decide to split the award of the Contract among different bidders based on the received combined score.

14. **Negotiations of the Proposal and Award**

The Commission reserves the right to request clarifications on the Proposal and to enter into negotiations regarding technical or commercial aspects of the Proposal before awarding the contract under this RFP.

15. **Modification and Withdrawal of Proposal**

Bidders may modify or withdraw their Proposals after their submission, provided that written notice of the modification or withdrawal is received by the Commission by the closing date for the submission of the Proposal. The Proposal may not be modified subsequent to the closing date.

16. **The Commission’s Right to Reject the Proposal**

The Commission reserves the right to accept or reject the Proposal or to annul this procurement process at any time prior to the award of contract without having to inform the bidders of the grounds therefore, without thereby incurring any liability to the bidders.

17. **Costs of preparation and submission of the Proposal**

Bidders shall bear all the costs associated with the preparation and submission of their Proposal and the Commission will not be responsible or liable for those costs, regardless of the outcome of this RFP.
18. Proprietary Information

All documentation and information contained in this RFP are proprietary to the Commission and shall not be duplicated, used or disclosed -in whole or in part- for any purpose other than to evaluate them and respond to the Commission's request for Proposal or otherwise without prior written agreement of the Commission.

Use of former Preparatory Commission for the CTBTO (“Commission”) employees in the preparation of Proposals:

Evaluation Criteria

OSI E-Learning Module Development
For Remote Refresher Training of OSI Surrogate Inspectors

Overview

This document describes the evaluation criteria that will be used to evaluate bidders’ technical proposals. The Evaluation Process will be done in two stages:

The maximum available points/score for Table 1 is 50/52.5.

To pass the technical evaluation, Bidders shall obtain at least 2 points in each criterion outlined in Tables 1. Non-compliance with at least one (1) of such criteria will result in the disqualification of the Bidder on a technical basis.

Bidders that satisfy the criteria to the minimum acceptable level will be assigned 3 points. Bidders whose proposals demonstrate that they satisfy a criterion beyond the minimum level will be assigned additional points, up to 5.

2. Financial Evaluation:

Once the technical evaluation is finalized, the technical evaluation panel and ADM/PR will evaluate the financial offers of the technically compliant bidders. The financial offers will be evaluated in accordance with the formula given below:

\[ X = \frac{\text{Max Available Score} \times Y}{Z} \]

Legend:
- \( X \) = points to be assigned to the offer being evaluated
- \( Y \) = price of the lowest priced, technically compliant offer
- \( Z \) = price of the offer being evaluated

Bidders are expected to accept the Commission’s Model Contract and General Conditions of Contract in full. Any deviations to such provisions will be a factor in the decision of the contract award. The Contract will be awarded to the Bidder who receives the highest combined score resulting from the technical and financial evaluation. The weight of the technical and financial evaluation components is 60% and 40% respectively.

The Contractor shall indemnify, hold and save harmless and defend at its own expense the Commission, its officers, agents, servants and employees from and against all suits, claims, demands and liability of any nature or kind, including cost and expenses arising out of acts or omissions of the Contractor or its employees or subcontractors in the performance of the Contract. This requirement shall extend, inter alia, to claims or liabilities in the nature of workers’ compensation and to claims or liabilities pertaining to intellectual property rights. There shall be one conciliator. The conciliation shall be in Vienna, Austria, and it shall be conducted in the English language.

24. ARBITRATION

(a) In the event of a failure to reach an amicable settlement in accordance with Clause 23 above (amicable settlement), any dispute arising out of the interpretation or application of the terms of the Contract or any breach thereof shall be settled in accordance with the arbitration rules established by UNCITRAL as at present in force. The number of arbitrators shall be one. The arbitration shall be in Vienna, Austria, and it shall be conducted in the English language.

(b) The arbitrator shall take into account the internationally recognized general principles of commercial transactions. The arbitrator shall have no authority to award punitive damages, nor to award interest in excess of five (5) per cent, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute.

25. PRIVILEGES AND IMMUNITIES

Nothing in or relating to the Contract shall be deemed a waiver of any of the privileges and immunities of the Commission and its employees.

25(a). TAX EXEMPTION

In principle, the Commission is exempt from all Taxes. Since the arrangement under which such exemption is respected varies from country-to-country, the Contractor shall collaborate with the Commission to achieve Tax exemption at source or to pursue reimbursement of Taxes paid by the Commission, as the case may be.

26. TERMINATION

The Commission may terminate the Contract in whole or in part, and at any time, upon thirty (30) days’ notice of
termination to the Contractor. In the event such termination is not caused by the Contractor’s negligence or fault, the Commission shall be liable to the Contractor for payment in respect of Services already satisfactory accomplished or Goods delivered and accepted and in conformity with the terms of the Contract, for necessary terminal expenses of the Contractor, and for the cost of such urgent work as is essential and as the Contractor is asked by the Commission to complete. The Contractor shall keep expenses at a minimum and shall not undertake any forward commitment from the date of receipt of the Commission’s notice of termination.

27. GOODS

In the event that the Contract requires the Contractor to supply Goods, the following clauses shall apply in addition to the above.

28. WARRANTY

(a) The Contractor warrants that the Goods, including packaging, conform to the specifications for the Goods ordered under the Contract and are fit for the purpose for which such Goods are ordinarily used and for purposes expressly made known to the Contractor by the Commission, and are new and free from defects in design, workmanship and materials.

(b) This warranty shall remain valid for twenty-four (24) months after the Goods or any part thereof have been delivered and accepted, whichever is later, unless the Contractor has granted a longer period. Should the Commission transfer the title of the Goods to a third party during the warranty period, the right to enjoy the warranty shall be transferable to the new title-holder.

(c) If, during the warranty period mentioned in Sub-clause (b) above, the Goods or any part thereof are found to be defective or not in conformity with the specifications under the Contract, the Contractor shall, upon notification, promptly and at its own expense correct all such defects and non-conformities. If these defects and non-conformities cannot be corrected, the Commission shall have the right, at the Contractor's expense, to either demand replacement of the defective item, or receive appropriate reimbursement, or have the defective item repaired or otherwise procured from a third party.

29. INSPECTIONS AND TESTS

(a) The Commission shall have the right to inspect and/or to test the Goods to confirm their conformity to the technical specifications. The technical specifications shall specify what inspections and tests the Commission requires.

(b) The inspections and tests may be conducted on the premises of the Contractor or its subcontractor(s), at a point of delivery designated by the Commission and/or at the Goods’ final destination. The Contractor shall give all reasonable facilities and assistance-including drawings and production data-to the Commission at no charge to the Commission.

(c) Should any inspected or tested Goods fail to conform to the technical specifications, the Commission reserves the right to reject them and the Contractor shall either replace the rejected Goods or make all alterations necessary to meet specification requirements free of cost to the Commission.

(d) The Commission’s right to inspect, test and, where necessary, reject the Goods after the Goods’ arrival at the point of delivery designated by the Commission or at the Commission’s offices, shall in no way be limited or waived by reason of the Goods’ having previously been inspected, tested and passed by the Commission.

(e) Nothing in this Section on Inspections and Tests shall in any way release the Contractor from any warranty or other obligations under the Contract.

(f) All equipment/material supplied under the Contract may be subject to pre-shipment inspection by a third party to be specified by the Commission. The Contractor is not liable for cost of this inspection.

30. PACKING

The Contractor shall comply or ensure compliance with the following provisions concerning packing:

(a) The Goods shall be packed as is required to prevent their damage or deterioration during transit to their final destination. The packing shall be sufficient to withstand, without limitation, rough handling during transit.

(b) In the case of a cross-border shipment, the Goods shall have appropriate export packing. If necessary, all cases/crates must be wrapped inside with heavy-duty plastic lined paper, should be steel-strapped and must be able to withstand tough handling. Skids for truck handling are imperative if the gross weight is more than 30 kilograms.

(c) The consignment shall be marked and shipped as per address shown on the Purchase Order Form.

(d) Neither partial delivery nor transshipment shall be made unless specifically agreed by the Commission in writing.

(e) Each case/crate/package shall carry a consecutive number, dimensions, volume, and weight (i.e. Case No. X of Y cases, A x B x C cm, E m3, D Kg.) and shall be marked as follows:

   EQUIPMENT FOR
   THE PREPARATORY COMMISSION FOR THE
   COMPREHENSIVE NUCLEAR-TEST-BAN
   TREATY ORGANIZATION.

(f) Markings shall be done with weatherproof materials. All non-containerized Goods shall be shipped below deck.

(g) Each case/crate/carton shall carry (outside) a copy of the packing list describing the contents of the case/crate/carton. Outside Case No. 1 should be
attached with invoice covering the actual delivery. The accompanying papers must be made out in the English language.

(h) Prior to delivery, a fax (or a letter by courier service) shall be sent to the consignee, if any, advising of the following:

(j) The above documents are indispensable and must reach the consignee, if any, on time to permit customs clearance and in order to avoid demurrage charges.

31. DELIVERY AND TRANSPORTATION

(a) Delivery of the Goods shall be made by the Contractor in accordance with the terms specified in the Contract, and the Goods shall remain at the risk of the Contractor until delivery has been completed.

(b) Transport of the Goods to the port of discharge or such other point in the country of destination and/or forwarding to the consignee, if any, (door-to-door) specified in the Contract shall be arranged and paid for by the Contractor and the cost thereof shall be included in the Contract Price.

32. TAKE-OVER/HAND-OVER

Upon successful completion of delivery or of installation and a testing and evaluation period, as specified in the Contract, responsibility for the Goods will be handed over to the consignee or other designated entity.

33. EXPORT LICENCES

If an export licence or any other governmental authorization is required for the Goods, it shall be the obligation of the Contractor to obtain such licence or governmental authorization. In the event of failure to obtain such licence or authorization within reasonable time, the Commission may declare the Contract null and void.

34. SPARE PARTS

In accordance with the Contract, the Contractor may be required to provide any or all of the following materials and notifications pertaining to spare parts manufactured and/or distributed by the Contractor:

(a) Such spare parts as the Commission may choose to purchase from the Contractor, provided that the Contractor is not relieved of any warranty obligations under the Contract;

(b) In the event of termination of production of the spare after delivery of the Goods:

(i) advance notification to the Commission of the pending termination, in sufficient time to permit the Commission to place a final order;

(ii) following such termination, furnishing at no cost to the Commission, the blueprints, drawings and specifications of the spare parts, if and when requested.

35. UNITED NATIONS CONVENTION ON CONTRACTS FOR THE INTERNATIONAL SALE OF GOODS

Questions concerning matters arising under the Contract, but not settled in it, shall be settled in conformity with the United Nations Convention on Contracts for the International Sale of Goods (Vienna, 1980), which shall be applicable to the Contract. The applicable language version of the Convention shall be the version in which the Contract is written.

Terms of Reference

OSI E-Learning Module Development
For Remote Refresher Training of OSI Surrogate Inspectors

July 2021
1. **Background**

The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization (hereinafter referred to as the “CTBTO” or the “Commission”) with its headquarters in Vienna is the International Organization mandated to establish the global verification system foreseen under the Comprehensive Nuclear-Test-Ban Treaty (CTBT), which is the Treaty banning any nuclear weapon test explosion or any other nuclear explosions. The Treaty provides for a global verification regime, including a network of 321 stations worldwide, a communication system, an International Data Centre and on-site inspections to monitor compliance with the Treaty.

The On-Site Inspection (OSI) Division is tasked with the establishment of the OSI regime by the Treaty’s entry-into-force. This includes the development of OSI operational capabilities and the inspectorate training programme. Methodologies utilized in the training of surrogate inspectors include the use of e-learning and e-training tools, classroom-based presentations, tabletop exercises, station rotations and field exercises.

The OSI Training section is currently developing a refresher training program for rostered OSI surrogate inspector trainees. A core component of this process includes the development of e-learning resources to be utilized as skills maintenance and refresher training tools. The delivery of OSI e-learning materials will take place on the CTBTO Moodle-based learning management system.

2. **Purpose/objective of the project**

The use of OSI e-learning tools takes place both prior to and throughout the conduct of the refresher training programme and provides important background information and knowledge to training activity participants.

Lessons identified from past field exercises, training cycles and from the Expert Meeting on Training of June 2021 have identified the further development of OSI distance learning and simulation tools as a key priority for the development of the training programme. This includes an analysis of the existing OSI training curriculum in order to identify topics which have traditionally been delivered through in-person presentations and to determine their suitability for conversion into e-learning resources.

The Contractor will work with OSI staff members and subject matter experts for the development of a new e-learning module.

**TARGET AUDIENCE**

The target audience includes multi-lingual and multi-cultural end users from CTBT Signatory States that have expertise in the following OSI scientific disciplines and processes:

- Geophysical techniques
- Seismic techniques
- Optical sensing including Multi-spectral and Infrared (MSIR)
- Radionuclide and Noble Gas techniques
- In-field Operations Support for Field Deployments

3. **Scope of work and work tasks**

This Terms of Reference calls for the delivery of three (3) e-learning modules (each approximately 1 – 1.5 hours of learning time) to be used as a preparatory resource for the On-Site Inspection Remote Refresher Training Program (hereinafter referred to as the “Services”). These e-learning modules will also be added to the On-Site Inspection Training Library.

The e-learning modules will prepare learners to participate in future onsite (face to face) refresher training and provide a foundation for the ability to acquire, process and interpret data from the specific OSI inspection techniques. Learners will be provided with a step-by-step tutorial on the deployment, operations and troubleshooting of the instruments that are permitted under the Treaty for use during an OSI and acquire competence with the Concept of Operations of each technique in accordance with the relevant QMS documentation.

The videos of the equipment and techniques required for the tutorial will be produced by the Commission in consultation with the Contractor.
The e-learning modules will include built-in proficiency and competency checks and instant feedback mechanisms, in order to quantifiably measure and confirm that learning has been transferred.

4. Work Schedule and Deliverables

The Services shall be provided for the period of four (4) months from the Effective Date of the Contract (October 2021 to January 2022) and be divided into the following phases:

Start date: 1 October 2021
Date of completion: 28 January 2022

1. Kick off meeting
2. Development of storyboards for each module and short videos in close cooperation with relevant OSI subject matter experts
3. Gathering of relevant source material
4. Review of draft modules and videos by relevant OSI subject matter experts
