In principle the Commission is exempt from taxes. Since the arrangement under which such exemption is respected varies from country-to-country, the (selected) bidder will be informed by the Commission whether tax exemption will occur at source or whether taxes will be reimbursed by the Commission upon submission of the original supporting documentation. “Taxes” means all direct and indirect taxes (including value added tax, general sales tax or goods and services tax), assessments, fees, customs duties, liens and charges in as much as they are levied in conclusion or implementation of the purchase order, including customs restrictions and charges of similar nature in respect of articles imported or exported for the Commission’s official use.

**[PLEASE CHOOSE THE APPLICABLE OR IDENTIFY ANY TAX EXEMPTION AT SOURCE AS PER FACILITY AGREEMENT OR OTHER MEANS]**

(1) **For Austrian companies**

The price quoted shall be net of Taxes. All applicable Taxes payable by the (selected) bidder at the conclusion or implementation of the Purchase Order in respect of the goods/services shall be quoted separately or be separately identified on the Proposal together with information on the nature of the tax and its method of calculation.

(2) **For European Union (EU) Companies [FOR PURCHASE FROM EU COUNTRIES]**

The price quoted shall be net of Taxes. All applicable Taxes payable by the (selected) bidder at the conclusion or implementation of the Purchase Order in respect of the goods/services shall be quoted separately or separately identified on the Proposal together with information on the nature of the Tax and its method of calculation. Due to the VAT exemption applicable to the Commission, no VAT will be charged to the Commission by the EEC Suppliers under the Contract (Ref. EU VAT Council Directive 2006/112/EC, Article 151).

(3) **For Non-EU Companies (FOR PURCHASE FROM NON-EU OR NON-EUROPE COUNTRIES)**

The price quoted shall be net of Taxes. All applicable Taxes payable by the (selected) bidder at the conclusion or implementation of the Purchase Order in respect of the goods/services shall be quoted separately or be separately identified on the Proposal together with information on the nature of the Tax and its method of calculation. For deliveries to Vienna, Austria, and due to the Tax exemption at source applicable to the Commission, no Taxes shall be charged to the Commission under the Purchase Order.

**Insurance**

Insurance to be included in the quotation must be for All Risk, covering 110% of the cost of the equipment proposed, and from the date/place of the shipment to the date/place the delivery is completed. The insurance shall be in the name of the bidder and the Commission.

(i) The obligations and responsibilities of the Contractor under the Contract shall be suspended to the extent of its inability to perform and for as long as such inability continues;

(ii) The term of the Contract shall be extended for a period equal to the period of suspension taking, however, into account any special conditions which may cause the time for completion of the obligations to be different from the period of suspension;

(iii) If the Contractor is rendered permanently unable, wholly or in part, by reason of force majeure to perform its obligations and meet its responsibilities under the Contract, the Commission shall have the right to terminate the Contract on the same terms and conditions as are provided for in the Termination Clause of the Contract, except that the period of notice may be seven (7) days instead of thirty (30) days;

(iv) For the purpose of the preceding sub-clause, the Commission may consider the Contractor permanently unable to perform in case of any period of suspension in excess of ninety (90) days. Any such period of ninety (90) days or less shall be deemed temporary inability to perform.

21. INSOLVENCY AND BANKRUPTCY

Should the Contractor be insolvent, adjudged bankrupt, or should the Contractor make a general assignment for the benefit of its creditors, or should a receiver be appointed on account of the Contractor’s insolvency, the Commission may, without prejudice to any other right or remedy it may have under the terms of the Contract, terminate the Contract forthwith by giving the Contractor written notice of such termination.

22. INDEMNIFICATION

The Contractor shall indemnify, hold and save harmless and defend at its own expense the Commission, its officers, agents, servants and employees from and against all suits, claims, demands and liability of any nature or kind, including cost and expenses arising out of acts or omissions of the Contractor or its employees or subcontractors in the performance of the Contract. This requirement shall extend, inter alia, to claims or liabilities in the nature of workers’ compensation and to claims or liabilities pertaining to intellectual property rights. The obligations under this clause do not lapse upon termination of the Contract.

23. AMICABLE SETTLEMENT

The parties shall use their best efforts to settle amicably through negotiation any dispute, controversy or claim arising out of, or relating to, the Contract or the breach, termination or invalidity thereof. If the parties cannot reach such amicable settlement through negotiations, the matter shall first be referred to conciliation, by a request by either party for conciliation procedures. The conciliation shall take place in accordance with the United Nations Commission on International Trade Law (UNCITRAL) Conciliation Rules then prevailing, or according to such other procedure as may be agreed between the parties, within a time period of ninety (90) days. There shall be one conciliator. The conciliation shall be in Vienna, Austria, and it shall be conducted in the English language.

24. ARBITRATION

(a) In the event of a failure to reach an amicable settlement in accordance with Clause 23 above (amicable settlement), any dispute arising out of the interpretation or application of the terms of the Contract or any breach thereof shall be settled in accordance with the arbitration rules established by UNCITRAL as at present in force. The number of arbitrators shall be one. The arbitration shall be in Vienna, Austria, and it shall be conducted in the English language.

(b) The arbitrator shall take into account the internationally recognized general principles of commercial transactions. The arbitrator shall have no authority to award punitive damages, nor to award interest in excess of five (5) per cent, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute.

25. PRIVILEGES AND IMMUNITIES

Nothing in or relating to the Contract shall be deemed a waiver of any of the privileges and immunities of the Commission and its employees.

25(a). TAX EXEMPTION

In principle, the Commission is exempt from all Taxes. Since the arrangement under which such exemption is respected varies from country-to-country, the Contractor shall collaborate with the Commission to achieve Tax exemption at source or to pursue reimbursement of Taxes paid by the Commission, as the case may be.

26. TERMINATION

The Commission may terminate the Contract in whole or in part, and at any time, upon thirty (30) days’ notice of
termination to the Contractor. In the event such termination is not caused by the Contractor’s negligence or fault, the Commission shall be liable to the Contractor for payment in respect of Services already satisfactory accomplished or Goods delivered and accepted and in conformity with the terms of the Contract, for necessary terminal expenses of the Contractor, and for the cost of such urgent work as is essential and as the Contractor is asked by the Commission to complete. The Contractor shall keep expenses at a minimum and shall not undertake any forward commitment from the date of receipt of the Commission’s notice of termination.

27. GOODS

In the event that the Contract requires the Contractor to supply Goods, the following clauses shall apply in addition to the above.

28. WARRANTY

(a) The Contractor warrants that the Goods, including packaging, conform to the specifications for the Goods ordered under the Contract and are fit for the purpose for which such Goods are ordinarily used and for purposes expressly made known to the Contractor by the Commission, and are new and free from defects in design, workmanship and materials.

(b) This warranty shall remain valid for twenty-four (24) months after the Goods or any part thereof have been delivered and accepted, whichever is later, unless the Contractor has granted a longer period. Should the Commission transfer the title of the Goods to a third party during the warranty period, the right to enjoy the warranty shall be transferable to the new title-holder.

(c) If, during the warranty period mentioned in Sub-clause (b) above, the Goods or any part thereof are found to be defective or not in conformity with the specifications under the Contract, the Contractor shall, upon notification, promptly and at its own expense correct all such defects and non-conformities. If these defects and non-conformities cannot be corrected, the Commission shall have the right, at the Contractor's expense, to either demand replacement of the defective item, or receive appropriate reimbursement, or have the defective item repaired or otherwise procured from a third party.

29. INSPECTIONS AND TESTS

(a) The Commission shall have the right to inspect and/or to test the Goods to confirm their conformity to the technical specifications. The technical specifications shall specify what inspections and tests the Commission requires.

(b) The inspections and tests may be conducted on the premises of the Contractor or its subcontractor(s), at a point of delivery designated by the Commission and/or at the Goods’ final destination. The Contractor shall give all reasonable facilities and assistance-including drawings and production data-to the Commission at no charge to the Commission.

(c) Should any inspected or tested Goods fail to conform to the technical specifications, the Commission reserves the right to reject them and the Contractor shall either replace the rejected Goods or make all alterations necessary to meet specification requirements free of cost to the Commission.

(d) The Commission’s right to inspect, test and, where necessary, reject the Goods after the Goods’ arrival at the point of delivery designated by the Commission or at the Commission’s offices, shall in no way be limited or waived by reason of the Goods’ having previously been inspected, tested and passed by the Commission.

(e) Nothing in this Section on Inspections and Tests shall in any way release the Contractor from any warranty or other obligations under the Contract.

(f) All equipment/material supplied under the Contract may be subject to pre-shipment inspection by a third party to be specified by the Commission. The Contractor is not liable for cost of this inspection.

30. PACKING

(a) The Goods shall be packed as is required to prevent their damage or deterioration during transit to their final destination. The packing shall be sufficient to withstand, without limitation, rough handling during transit.

(b) In the case of a cross-border shipment, the Goods shall have appropriate export packing. If necessary, all cases/crates must be wrapped inside with heavy-duty plastic lined paper, should be steel-strapped and must be able to withstand tough handling. Skids for truck handling are imperative if the gross weight is more than 30 kilograms.

(c) The consignment shall be marked and shipped as per address shown on the Purchase Order Form.

(d) Neither partial delivery nor transhipment shall be made unless specifically agreed by the Commission in writing.

(e) Each case/crate/package shall carry a consecutive number, dimensions, volume, and weight (i.e. Case No. X of Y cases, A x B x C cm, E m3, D Kg.) and shall be marked as follows:

(j) The above documents are indispensable and must reach the consignee, if any, on time to permit customs clearance and in order to avoid demurrage charges.

31. DELIVERY AND TRANSPORTATION

(a) Delivery of the Goods shall be made by the Contractor in accordance with the terms specified in the Contract, and the Goods shall remain at the risk of the Contractor until delivery has been completed.

(b) Transport of the Goods to the port of discharge or such other point in the country of destination and/or forwarding to the consignee, if any, (door-to-door) specified in the Contract shall be arranged and paid for by the Contractor and the cost thereof shall be included in the Contract Price.

32. TAKE-OVER/HAND-OVER

Upon successful completion of delivery or of installation and a testing and evaluation period, as specified in the Contract, responsibility for the Goods will be handed over to the consignee or other designated entity.

33. EXPORT LICENCES

If an export licence or any other governmental authorization is required for the Goods, it shall be the obligation of the Contractor to obtain such licence or governmental authorization. In the event of failure to obtain such licence or authorization within reasonable time, the Commission may declare the Contract null and void.

34. SPARE PARTS

In accordance with the Contract, the Contractor may be required to provide any or all of the following materials and notifications pertaining to spare parts manufactured and/or distributed by the Contractor:

(a) Such spare parts as the Commission may choose to purchase from the Contractor, provided that the Contractor is not relieved of any warranty obligations under the Contract;

(b) In the event of termination of production of the spare parts after delivery of the Goods:
   (i) advance notification to the Commission of the pending termination, in sufficient time to permit the Commission to place a final order;
   (ii) following such termination, furnishing at no cost to the Commission, the blueprints, drawings and specifications of the spare parts, if and when requested.

35. UNITED NATIONS CONVENTION ON CONTRACTS FOR THE INTERNATIONAL SALE OF GOODS

Questions concerning matters arising under the Contract, but not settled in it, shall be settled in conformity with the United Nations Convention on Contracts for the International Sale of Goods (Vienna, 1980), which shall be applicable to the Contract. The applicable language version of the Convention shall be the version in which the Contract is written.

OSI E-Learning Module Development
For Regional Introductory Courses

July 2021
1. **Background**

The Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization (hereinafter referred to as the “CTBTO” or the “Commission”) with its headquarters in Vienna is the International Organization mandated to establish the global verification system foreseen under the Comprehensive Nuclear-Test-Ban Treaty (CTBT), which is the Treaty banning any nuclear weapon test explosion or any other nuclear explosions. The Treaty provides for a global verification regime, including a network of 321 stations worldwide, a communication system, an International Data Centre and on-site inspections to monitor compliance with the Treaty.

The On-Site Inspection (OSI) Division of the Commission is tasked with the establishment of the On-Site Inspection (OSI) regime by the Treaty’s entry-into-force. This includes capacity building and outreach programs used to acquaint national technical experts and personnel from the States Signatories of the region with the OSI regime, broaden the pool of experts from the States Signatories of the region who are available to participate in OSI related activities, and to identify potential candidates for the Provisional Technical Secretariat (PTS) roster of surrogate inspectors. Methodologies utilized in capacity building and outreach training include the use of e-learning and e-training tools, classroom-based presentations, tabletop exercises, station rotations and field exercises.

The OSI Training section is currently planning two (2) major capacity building courses known as Regional Introductory Courses (RICs). A core component of this process includes the development of e-learning resources to be utilized as preparatory materials before the conduct of the RICs. The delivery of OSI e-learning materials will take place on the CTBTO Moodle-based learning management system.

2. **Purpose/objective of the project**

The objective of this project is to develop online preparatory materials and OSI e-learning tools before the conduct of the RICs to provide important background information and knowledge to the RIC participants and to maximize onsite training time for hands-on learning.

The use of OSI e-learning tools takes place both prior to and throughout the conduct of the RIC programs.

This module will target a global audience of varying technical expertise and experience and serves as an introductory course for potential new participants to a more advanced OSI inspector training program.

The Contractor will work with staff members of the OSI Division and subject matter experts for the development of a new e-learning module.

3. **Scope of work and work tasks**

These Terms of Reference (ToR) calls for the delivery of e-learning modules (approximately 1 – 1.5 hours of learning time) to be used as a preparatory resource for 2 On-Site Inspection Regional Introductory Courses scheduled to be conducted in the 3rd and 4th quarter of 2022. These e-learning modules will also be added to the On-Site Inspection Training Library.

The e-learning modules will prepare learners to participate in future onsite (face to face) training and will provide a foundation for newly inducted inspectors trainees the ability to acquire, process and interpret data from the specific OSI inspection techniques. Learners will be provided with a step-by-step tutorial on foundational concepts of onsite inspections and on equipment, techniques and procedures that are permitted under the Treaty for use during an OSI.

The e-learning modules shall include built-in proficiency and competency checks and instant feedback mechanisms, in order to quantifiably measure and confirm that learning has been transferred.

4. **Work Schedule and Deliverables**

The services shall be provided for the period of 4 months from the Effective Date of the Contract and be divided into the following phases:

1. Kick off meeting
2. Development of storyboards for each module and short videos in close cooperation with relevant OSI subject matter experts
3. Gathering of relevant source material
4. Review of draft modules and videos by relevant OSI subject matter experts
5. Edits and updates to the draft modules and videos
6. Handover of final modules and video project files

5. Methodology, Standards and Technology

The Contractor shall develop the e-learning modules with the following requirements:

**Technical requirements:**

- The developed e-learning modules shall conform to Sharable Content Object Reference Model (SCORM) standards and shall also be compatible with the xAPI protocol. The e-learning modules shall be based on Web accessibility W3C standards.
- E-learning development shall be done using standard off the shelf e-learning authoring tools. Experience with Adapt Framework and/or Articulate 360 authoring tools is preferred.
- The e-learning modules shall be developed in a way that allows the CTBTO the ability to perform easy and instant updates of the training contents and materials after the end of the Contract in-house.
- The module shall be accessible on iOS, Android and Microsoft mobile and tablet devices (HTML5).
- Visualization components of the modules shall be delivered in low-bandwidth and high-bandwidth versions with appropriate bit rates and shall be compatible for playback on all modern mobile devices, personal computers and web browsers.

**Functionality requirements for the target audience:**

- The user shall have the ability to stop or pause the module during any phase.
- Proficiency and competency testing of learners shall be built in throughout the module, using task-based exercises and assessments.
- An instant feedback system contained within each module shall allow for immediate assessment of the learner’s activities.
- Users shall have the ability to review in-module assessments exercises.

**Visual and Learning Design Requirements:**

- Consideration shall be given to current best practices regarding e-learning and professional computer-based training methodologies.
- The modules shall be engaging and interactive and shall contain video, photo, audio, subtitles or transcripts, embedded assessments, and be intuitive and easy to use.

**Language Requirements:**

- The e-learning modules shall be developed in English.
- Consideration shall be made that many users will not be native English speakers.

**The Contractor shall take into account the following instructional design elements:**

- The content structure of the e-learning modules shall be one of the following approaches:
  - Linear, knowledge based
  - Interactive modules (branching model)
- The modules shall be adaptable to the learning environment and can be deployed as one or both of the following:
  - Face-to-face course or training materials
  - Entirely self-paced and online

The overall length of modules needs to take into account not only the interactive components including assessments, multimedia, critical thinking challenges, etc. but also the time that the learner spends on analyzing the content and choosing and reflecting on responses. The length of module should be approximately 1 hour to 1.5 hours in duration.
6. Required Technical Skills of the Contractors

The Contractor’s staff responsible for the technical development of the modules must have these qualifications:

6. Demonstrated experience in development of e-learning modules utilizing distance learning best practices and the application of appropriate instructional design based on the learning scenario.
7. At least 5 years of recent experience in using HTML and CSS in support of e-learning development.
8. Demonstrated experience in developing SCORM packages and working with common e-learning management systems such as Moodle.
9. Demonstrated professional knowledge of the English language.
