- *Question and Answer - Clarifications No. 1*

Item#	Question	Answer
1	Please note that Leica captivate running on CS20 should connect with TPS1200/1205 using Bluetooth handle (RH16- RH17- RH18) or the short range Bluetooth. To establish a connection between Cs20 and TPS1200/1205, the total station should have the latest updated Firmware to find the RHs listed as device and the Bluetooth handle. Leica has confirmed s that this connection might be possible so kindly advise if Commission has experience with it.	The Commission possesses the handle for the TPS1200 and a Bluetooth USB stick for the CS20.
